There will be a SECOND COLLECTION next Sunday for the work of Catholic Education in Scotland

The mission of the Catholic school is to develop as a community of faith and learning, providing the highest quality of education, and offering formation through the promotion of Gospel values, through celebration and worship, and through service to the common good.

CATHOLIC EDUCATION WEEK

A Catholic school is a community of love and hope. It provides young people with a Catholic education which perceives life as a faith journey. The ultimate aim of a Catholic school is to develop the full potential of all young people, leading to their life-long activities being guided by the Spirit and presence of Christ, in the service of God and of others.

Catholic education is distinctive in placing all learning and teaching in a Catholic moral context and in both challenging and supporting young people to develop in mind, body and spirit. The role of a Catholic school is to help everyone in the school community to discover the true value and dignity of each and every human being who, loved by God, has a mission on earth and a destiny which is eternal.

The Catholic school is an open community, concerned with the education of the whole person. It presents a unique, clear vision of God, people and life, centred on Gospel values and reflective of the teaching of the Catholic Church. Hence, the formation of each person is regarded as being as important as the information which is transmitted through the teaching offered.

The Catholic school is supported in its mission by the active partnership of the home, the school and the parish. Together, they provide support for the faith community, helping to form and develop in all a mature Christian conscience, in addressing the increasingly secular influences of popular culture.

Catholic Schools

- +contribute to the Church's mission to proclaim the Good News of Jesus Christ.
- +offer the Catholic community an educational foundation for life to the full, meaning the full development of the person - intellectually, spiritually, physically, morally and emotionally.
- + fulfill parents' rights in a democratic, free society to choose the schooling for their children which reflects their own values, beliefs and hopes.
- + have proven over successive generations that they contribute significantly to the development of the wider community.
